

Ordering Information

ORDERING

Orders should be sent via email to plaques@fm-tags.com or by post if so desired. Orders received after 2 pm will not be processed until the next **working day**.

When placing your order it is recommended to download the order form which is available online, this helps to ensure all the information required is received.

Email or postal orders will now be the only document used to process your order. Unfortunately, I can no longer accept telephone orders or orders with references to rally programmes. Due to data protection, customer delivery address details are no longer stored with the account, therefore, addresses will need to be sent with each new order.

Please note that missing information may result in your plaque order being delayed.

DELIVERY

Due to new working practices, I ask for the following timescales when orders are placed.

* Agreed weekly plaque shape with agreed colour - orders should be placed allowing at least 7 - 10 working days prior to the requested delivery date and not rally date. (Please allow for 2 working days for Royal Mail 1st Class Delivery do not include Saturday & Sunday.)

* Weekly plaque shape - orders should be placed allowing at least 14 working days prior to the requested delivery date and not rally date. (Please allow for 2 working days for Royal Mail 1st Class Delivery do not include Saturday & Sunday.)

* Plaque orders for example bank holidays, holiday rallies, specific design, new motifs or large order qty, please enquire before you place your order.

Please be assured that I will do my utmost to complete your order by the required date but should I not be able to deliver by your requested date for any reason, I will not be held accountable for any compensation.

Please be aware that if you wish to cancel an order placed which has been started and in production, you will still be charged.

DISPATCHING

Standard plaque orders will be dispatched using Royal Mail 1st Class delivery and whilst every effort is made for the safe arrival of your order, Royal Mail states that despite best efforts some services may still be disrupted.
